KEA SCREW-IN BUSHING

KEA SCREW-IN BUSHINGw/ SPRING-LOADED INTERNAL THREAD

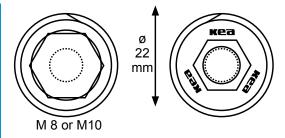

Material: Zamak, Plain

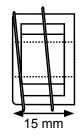

Bore: ø 22 mm x 15 mm

Threaded hole: M8 & M10

Item No.: M8 # 11.07.010

M10 # 11.07.011

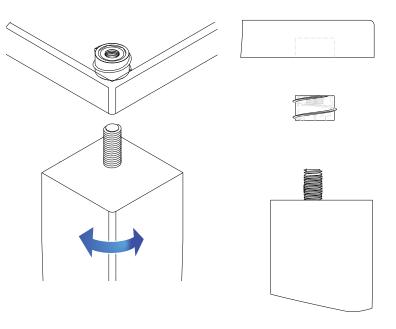

KEA bushing for tables.

The perfect solution for coffee and dining tables.

The KEA solution gives you the possibility to tighten and adjust your table leg in any position due to its **patented** internal spring-loaded system.

With a traditional bushing you normally reach a point where you cannot turn in the hangerbolt any further. If you then have a square table leg that has to be flush with the edge of the table you have a problem. Only by heavy force you can try to turn your table leg further and risk that the wood cracks.

This will not happen with the KEA bushing due to its **patented** internal spring-loaded system.

KEA SCREW-IN BUSHING

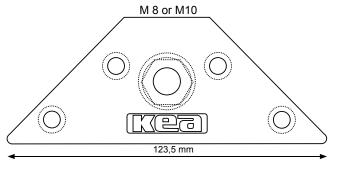

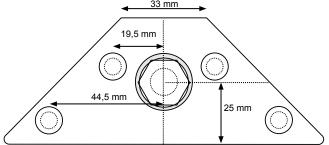

KEA SCREW-IN BUSHING, TRIANGULAR PLATE W/ SPRING-LOADED INTERNAL THREAD

 Material:
 Zamak, Plain

 Width:
 123,5 mm

 Threaded hole:
 M8 & M10

 Item No.:
 M8 M8 # 11.07.015 # 11.07.016

 M10 # 11.07.016

The triangular KEA has been tested by SP Swedish National Testing and Research Institute and has proven strong even for bed frame use.

Click Catch Innovative patented solution for connecting table and additional table leaves!

The connector consists of a male and female part – a revolving fork and a U-bracket.

Normally two sets of CLICK CATCH are mounted under separate table tops to connect a pair of

tables by wedging the forks into the U-brackets. When not in use the forks are easily swivelled back under the table top, where they remain invisible and of no obstruction to knees!

We supply a template for the correct location of fastening screws, but otherwise the positioning of the hardware is determined by the furniture manufacturer.

The hardware is manufactured from 3 mm har steel plate, bright zinc or yellow zinc plated. You can furthermore choose between 2 different lengths.

The standard model which is 153 mm long and a longer and even stronger model "XL" which is 201 mm.

The "XL"-model is especially popular for tables with chamfered plates.

We are also prepared to supply extra female parts of the **CLICK CATCH** in case clients want to offer their desks with more than one attachment position.

Normally two sets of CLICK CATCH

Originally the **CLICK CATCH** was created for connecting tables, but also modular chairs can be joined into sofas - and single beds into double beds - simply by applying the **CLICK CATCH**!

SURF TABLE CONNECTOR

SURF

the new patented solution for connecting tables

The **SURF** table connector is the latest development of our table connector CLICK CATCH.

With the **SURF** we combine design with improved functionality. Not only does the **SURF** connect and hold the table leaves like the CLICK CATCH - it also pulls the table leaves together.

The **SURF** is mounted under the table top to connect tables by sliding the ellipse into the female part. When connected, you lock and tighten the **SURF** by closing the black plastic locking cap.

When not in use the ellipse is easily swivelled back under the table top, where it remains invisible and of no obstruction to knees! The female part, when not in use, works like a spacer for safe stacking of additional table leaves.

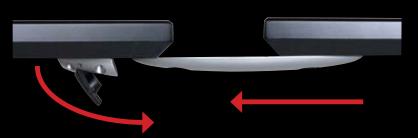

Danish design by SISO & Jesper Møller Hansen CNC drilling required

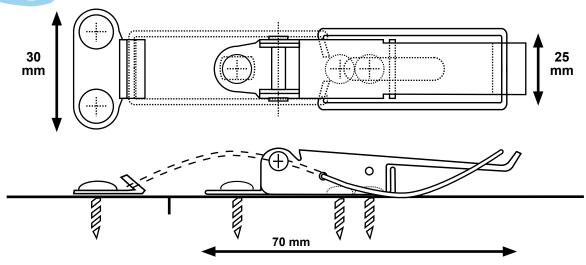

1 set consists of a male and a female part made of zamak. Fixation by means of 4 wood screws, a zamak screw-in bushing and a fifteen screw.

1 Male + 1 female - Alu finish	# 24.03.100
Female part only - Alu finish	# 24.03.102
Wood screw Ø4 x 16 mm, BZP	# 15.04.400
Fifteen screw M6 x 25 mm, black	# 12.00.903
Screw-in bushing E-620,	
zamak M6 x 20 mm, YZP	# 12.10.223

Catch #22 is a patented version of the traditional table catch. This new model holds itself flat underneath the table top and spare leaves in both the locked and unlocked position.

Flat to base, even when unlocked - see picture A - D.

The old version always hung loose underneath the table and from spare leaves when not in use. This could easily cause damage to surfaces and edges, particulary on tables fitted with folding »butterfly« extension leaves and even to peoples' legs and clothing.

SNAP FOLDING LEGS

SPECIFICATION

Tube legs: Seamless, Steel ø 32 x 2 mm.

Designed for standard table width of 800 mm. Other widths may be produced to order.

Offers a table height of 720 mm including a 30 mm table top panel.

Smallest table length is 1000 mm.

Models: w/Straight Tube, Chrome Plated

> 645 mm outer width x 690 mm height # 06.11.000

w/Bent Tube, Chrome Plated

645 mm outer width x 690 mm height # 06.11.005

On request: Epoxy lacquered in any RAL colour. Mimimum quantity 125 sets

Self colour, disassembled and bulk packed. Minimum quantity 125 sets

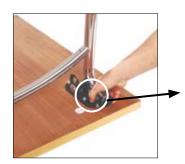

Mounting plate: Polished Stainless Steel 3,0 mm, coated with Black Abcide for silent closing and opening.

Fixation: Screw in bushing. E-613, Zamak, YZP, M6 x 13 mm # 12.10.222

Dome head screw DIN 7985, BZP, M6 x 14 mm # 12.06.830

Should be ordered separatly. This is very important, for the function and stability of the legs.

Individually packed in cartons containing 1 complete set Snap folding legs for one table Packing:

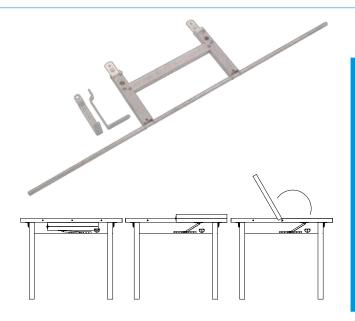

NB! Press spring button before folding the legs

Springloaded lock prevents accidental collapse of table legs.

HIDE AWAY MECHANISM

HIDE AWAY MECHANISM f/ FOLDED TABLE TOPS

- Suitable for table flap widths from 400 to 700 mm.
